Portfolio

EDUCATION

University of Example

Bachelor of Science in Computer Science

2016-08-01 - 2020-05-01

SKILLS

- Python
- Java
- JavaScript
- SQL
- C++
- TypeScript
- Go
- Rust

LANGUAGES

- English
- Arabic
- Urdu
- Hindi

PROFESSIONAL PROFILE

Experienced software engineer with over 10 years of expertise in developing robust applications and leading technical teams. Skilled in Python, Java, and cloud technologies with a proven track record of delivering high-quality solutions that drive business growth and operational efficiency. Experienced software engineer with over 10 years of expertise in developing robust applications and leading technical teams. Skilled in Python, Java, and cloud technologies.

WORK EXPERIENCE

Tech Solutions Inc.

Senior Software Engineer 2020-01-01 - Present

- Led development of microservices architecture that improved system scalability by 35%.
- Mentored junior developers and implemented code review processes that reduced defects by 28%.
- Designed and implemented CI/CD pipelines reducing deployment time from days to hours.
- Orchestrated transition from monolithic architecture to microservices, improving system reliability.
- Developed RESTful APIs consumed by web and mobile applications serving over 100,000 daily users.

PROJECTS

Intelligent Traffic Management System Spring 2017

Technologies: Python, TensorFlow, OpenCV, Raspberry Pi

- Developed an AI-based traffic management system that uses computer vision to optimize traffic light timing
- Implemented real-time video processing algorithms reducing average wait time by 23% in simulations

HOBBIES & INTERESTS

- Open source contributions
- Photography
- Hiking
- Chess
- Reading science fiction

- Created a dashboard for traffic administrators to monitor and manually override the system when needed
- Deployed on edge devices placed at traffic intersections for real-time decision making

CERTIFICATIONS

AWS Certified Solutions Architect - Professional 2023-01-01

Issued by: Amazon Web Services

Credential ID: AWS123456789

URL: https://www.credly.com/badges/123456

- Demonstrated advanced technical skills in designing distributed systems on AWS
- Validated expertise in security, high availability, and cost optimization
- Covered advanced networking, hybrid architectures, and migration strategies

PUBLICATIONS

Machine Learning Approaches for Traffic Prediction 2022-05-01

Authors: Doe, J., Smith, A., Johnson, B.

Published in: Journal of Artificial Intelligence Research

URL: https://doi.org/10.1109/ICHI.2021.12345

- Presented novel deep learning architectures for urban traffic prediction
- Achieved 15% better accuracy than previous state-of-the-art methods
- Dataset included 1 million traffic samples from 10 major cities
